Trauma Care

18th International Conference

15th March—18th March 2017

Invitation for Exhibitors & Sponsors

Whether you have been one of our previous supporters, or *Trauma Care* is new to you, I would like to invite you, as a member of the trauma community to consider joining us for our 2017 Conference to be held at Yarnfield Park near Stafford from Wednesday 15th March 2017 to Saturday 18th April 2017. *Trauma Care* is a multidisciplinary organisation and a registered charity devoted to improving the care of the injured across the UK. Truly multidisciplinary, our members include doctors, paramedics, nurses, and the complete range of therapists involved in returning patients to normal (or near normal) life. We also attract managers and those responsible for clinical and operational policy across the new trauma networks,

Our conference, now in its twentieth year, has grown each year and now takes place over four themed days, each with several educational streams and with every day focussing on one particular professional group or discipline as part of a broader daily programme. The majority of delegates select a number of days to attend and we can therefore guarantee new delegates throughout the week.

Last year, in excess of 1000 people attended some or all of our conference.

Over the years, we have built up a loyal band of commercial supporters who find that our

conference offers them unparalleled exposure to potential customers. In return, we at Trauma Care recognise how much we depend on this commercial support and strive to make the exhibitor experience a valuable one. This is our 2nd year our conference takes place at the new larger venue allowing us to accommodate more exhibitors. In recognition of this we have chosen to keep exhibitor fees as of 2016.

If you would like to join us at *Trauma Care* 2017, please do not hesitate to contact the *Trauma Care* office where our administrator Kim Matthews will be very pleased to assist in any way they can, for example in identifying the days when your preferred clinical specialist group is most likely to be attending.

I very much hope to see you next year, and I am most grateful in advance for your consideration.

Professor Sir Keith Porter
Chair – Trauma Care

Dr Caroline Leech
Vice Chair—Trauma Care

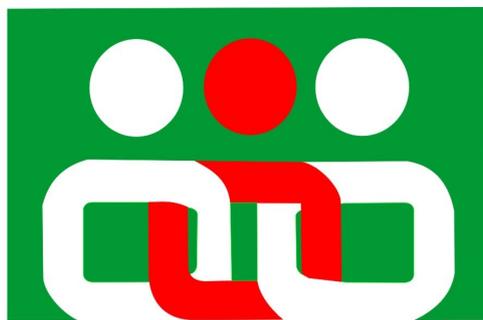

Trauma Care
